Subject: Microsoft Settlement

Dear Judge Kollar-Kotally,

In all honesty the Proposed Final Judgment stinks. I disapprove of the tactics used to get what they want. As one can see, MS, with disregard to the rules put in place, will continue to violate all anti-trust laws. The Proposed Final Judgment is not a panacea to the Microsoft debacle but, in fact, avoids the whole issue altogether.

Undeniably true and accurate, Microsoft is guilty of breaking these laws. Under the final settlement, the DoJ allows MS to retain most of its profits gained through past illegal activities. Therefore, the PFJ will not compensate parties harmed through Microsoft's egregious acts.

In addition, the PFJ will not take into account all Microsoft gains made through its illegal maneuverings. With all due respect, the final settlement is basically acknowledging the acceptance of Microsoft's anti-competitive behavior. What kind of message does this send out to the public? I can assure you that the message is clear and simple.

The PFJ encourages big corporations to engage in monopolistic and predatory conduct, which in turn is detrimental to the technology industry at large. With all due respect your honor, I am outraged at such a preposterous proposal that only helps Microsoft to remain intact and continue with its unethical practices. Thus, I conclude by respectfully submitting my disapproval to this Proposed Final Judgment.

Respectfully,

Mrs. Nimfa Paraso
